

PAPER GROTTTO LIVE

Butoh meets Origami! The Techno Dogs are mumbling something about space and time, watching their palms change. The Shadow World provides cover while someone makes a phone call. Apparitions slip into something more mysterious.

" it's like singing in the shower or hiding in plain sight", "...you haven't seen anything like it...", "...bedazzles the brain..."

Paper Grotto Live is a sculpture, video, performance & music event. The subject matter in the Grotto ranges from water to fire, from poetry to prose, from fashion to puppets, giant dogs, paper haircuts and more

Giant paper sculpture installations are modified to fit any space. The diaphanous translucence of paper becomes an ambient light catcher.

Add darkness, video projections, performers, audio and presto!
PAPER GROTTTO LIVE!
